

Crimes in Raleigh

mmtankkl design document

Roster: Max Millar, Kendrick Liang, Amit Narang, Kyle Tau

SoftDev pd 6

2019-04-08

For this project we will be creating a visualization of the crime data in the 6 districts of Raleigh, North Carolina. We will be displaying the frequencies of the data through a bar chart, and thus will allow users to better understand the crime situation in Raleigh.

TASKS:

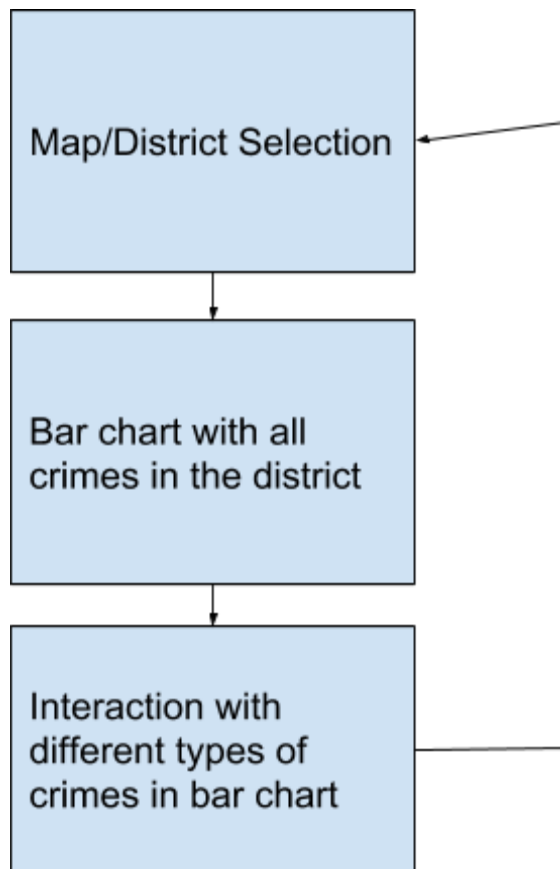

Max Millar: Create visualization of data through a bar chart

Kendrick Liang: Connect Raleigh data to code needed to create bar chart

Amit Narang: Connect Map of Raleigh to the selections of data needed for bar chart

Kyle Tau (PM): PM jobs and any small tasks as needed

Component Map/User Interaction:

Site Map:

Crimes in Raleigh

Select district:

☐ Crime 1
☐ Crime 2
☐ Crime 3
